

CS/EE/ME 75(C) Organizational Meeting

1) How are you? Let's share stories.

2) When/How should we meet?

- Weekly meeting for progress reports and group brain storming
- Possible other weekly meeting with teams (perhaps starting a few weeks into the quarter)
- “Technical lectures” will be mainly asynchronous.

3) Course activities and goals.

- Where is the hardware?
- Simulation! You'll start with a “Husky” simulator from JPL to learn.
- We'll make simulations of each CS/EE/ME 75 vehicle
- We can debug a *lot* of planning & control issues in simulation
- If we get back to campus, this will help with hardware integration

CS/EE/ME 75(C) Organizational Meeting

4) Resources?

- Course website, or Moodle?
- Zoom, website, Yahoo.
- Other ideas?

5) Other ideas?
